SUMMARY

Detail-oriented BS Management Information Systems student at Ateneo de Manila University specializing in Enterprise Systems. Experienced in bridging the gap between complex technical requirements and core business alignment through cross-functional collaboration. Capable in frontend development using JavaScript and TypeScript. Combines a goal-driven technical mindset with a creative flair for storytelling, offering a well-rounded approach to dynamic IT environments and stakeholder management.

EDUCATION

Bachelor of Science in Management Information Systems (DOST Merit Scholar) Aug 2022 - Present
Ateneo de Manila University

Philippine Science High School - Caraga Region Campus Aug 2016 - May 2022
High School Diploma

WORK EXPERIENCE

Digital Transformation Intern, KPMG Philippines June 2025 - July 2025

- Contributed to both frontend and backend (Angular, Lumen) development of an internal system for a major client, supporting feature implementation and system enhancements.
- Participated in client meetings alongside the development team, gaining firsthand experience in project scoping, requirement gathering, and solution alignment.
- Assisted in facilitating communication between the development team and the client to ensure clear understanding of technical requirements and business needs.
- Gained exposure to real-world IT consulting practices within a leading professional services firm, working in a collaborative, client-focused environment.

PROJECTS

Petron Car Care Center Butuan - Job Order and Inventory Management System

- Leveraged AI-augmented development workflows to rapidly architect and deploy a full-stack, mobile-responsive Job Orders and Inventory Management System using React, TypeScript, and Supabase.

Theomeds Marketing - Call Coverage System Progressive Web App

- Spearheaded technical architecture and client communications for our capstone project with Theomeds, analyzing their operations to design and develop a custom PWA module that best fits the business case.

HabitOT - Patient Carryover Therapy Management Web App

- Collaborated with an external thesis group and a healthcare client to translate research requirements into a functional web application, co-developing a secure, role-based therapy management platform

UNIVERSITY ORGANIZATIONAL EXPERIENCE

Esports Director, Loyola Gaming Jun 2025 - Present

- Directed the overall strategy, operations, and execution of Loyola Gaming's Esports Department, overseeing end-to-end planning, event execution, and aesthetic direction.
- Led and managed the organization's entire competitive structure, including multiple collegiate esports teams on various titles.
- Collaborated directly with the University Athletics Office (UAO) to manage Ateneo's official UAAP Esports team, acting as the assistant to the UAAP Esports Manager.
- Supervised a team composed of Esports General Manager, Co-Director, and UAAP Lead Managers, ensuring alignment with organizational goals

Documentations Director, Ateneo Hinomoto Jul 2023 - Jul 2025
Quezon City, Metro Manila

- Oversaw visual documentation of organizational events, activities, and initiatives through photography and videography.
- Directed and collaborated with department subcommittees to ensure all photographs and videos align with the organization's values and aesthetics.
- Managed documentation processes for efficient documentations management.
- Spearheaded the conceptualization and production of video promotions for the flagship event, Natsu Matsuri.
- Captured and produced photo and video documentation of the organization's events.
